

CARE Service Programs

Fast

Cost-Effective

Efficient

Reliable

A Trusted Partnership

Compressed air is critical to your operation. A proper maintenance strategy is crucial to avoiding unplanned, unbudgeted downtime and production interruptions. By choosing an Ingersoll Rand CARE service program, you are investing in your future with a trusted partner.

The CARE Service Program Advantage

Genuine Parts

Ingersoll Rand genuine parts are your best choice for maximum reliability and optimal performance. Using genuine parts eliminates exposure to unnecessary equipment wear and tear, which leads to increased downtime and higher operating costs.

Rapid Response

As an Ingersoll Rand service program customer, you are our top priority when it comes to repair work.

Optimized for Efficiency

The largest operating cost for a compressed air system is electricity consumption. Our CARE programs help maintain compressor efficiency by ensuring that filters and fluids are kept in optimal condition, and controls are tuned for peak performance.

Early Detection and Predictability

Our lubricant analytics and mechanical condition-trending service let us know when your equipment needs to be checked so it won't go down unexpectedly.

We Don't Forget

Automated shipment or scheduling reminders prevent any chance of overlooking or under-maintaining your equipment. Compressed air is our expertise and we will make sure you don't miss a scheduled maintenance.

Lasts Longer, Runs Better

Your compressor is as good as its components — each is dependent on the other for proper operation. Replacing the right parts at the right time ensures longer life and reduces the likelihood of unwanted surprises.

It All Adds Up to Peace of Mind

Lower Cost of Ownership

CARE service programs provide the most cost-effective solutions based on your customized maintenance strategy.

Quality Results

Ingersoll Rand factory-trained service technicians are backed by more than 145 years of industry experience.

Increased Uptime

Our CARE programs help decrease unplanned downtime and costly production interruptions.

Efficient Energy Use

Peak system efficiency is achieved through properly performed maintenance and inspection.

Peace of Mind

Our world-class services will help you achieve the results you need, while you focus on what's important to your business.

Invest In Your Future

Regardless of your maintenance strategy, the goal of our CARE service programs is to be your **trusted partner** for the life of your compressed air equipment.

Choose The Right Maintenance Strategy For You	
Maintenance Need	Ingersoll Rand Solution
